LOCATION OF CONF/VISIT

PERSON IN CONTACT WITH BETTY BERRY:

NAME: Denise Jordan-Izaguirre PHONE: (913) 551 - 7692

ORGANIZATION: Agency for Toxic Substances and Disease Registry

SUBJECT: Dioxin equivalents detected at the Carter Carburetor site

SUMMARY: I called Ms. Jordan Izaguirre to ask if the dioxin equivalents detected at the above-referenced site posed a health concern.

Denise wanted to know what the levels were (3.93) and what kind of setting the site was located in. I told her the level was 3.93 ppb and the setting was industrial, and also that the St. Louis Redevelopment Authority planned to keep the site industrial after it was cleaned up. Denise explained that because the site was in an industrial setting and the level was low, the dioxin equivalents⁵ did not pose a health concern.

Site: Carter Carburetor
ID #: MOD000822601
Break: 1.1
